Material Safety Data Sheet

Identity: Tin Sulfide

Formula: SnS2

SECTION I - GENERAL INFORMATION

Manufacturer: Advanced Engineering Materials Limited (AEM)

The information below is believed to be accurate and represents the best information available to AEM. However, AEM makes no warranty, expressed or implied with respect to such information and assumes no liability resulting from its use.

SECTION II - HAZARDOUS INGREDIENTS/IDENTITY INFORMATION

 CAS #
 OSHA PEL
 ACGIH TLV
 %

 1315-01-1
 2 mg (Sn)/m3
 2 mg (Sn)/m3
 0.0-100.0%

SECTION III – PHYSICAL/CHEMICAL CHARACTERISTICS

Physical States: Solid

Boiling Point: N/A Melting Point: 600 °C Evaporation Rate: N/A Solubility in water: Insoluble Vapor Pressure (vs. air or mmHg): N/A Density: 4.5 g/cm³ Flash Point: N/A

Appearance and odor: Gold-yellow powder and pieces, no odor.

SECTION IV - FIRE AND EXPLOSION HAZARD DATA:

Method Used: UnknownExplosive Limits: LEL: N/AUEL: N/AExtinguishing Media: Use suitable extinguishing agent for surrounding material and type of fire

Special Fire Fighting Procedures:

Firefighters must wear full face, self-contained breathing apparatus and full protective clothing to prevent contact with skin and eyes. Fumes from fire are hazardous. Isolate runoff to prevent environmental pollution.

Unusual Fire and Explosion Hazards:

-When heated to decomposition, tin sulfide may emit fumes of SOx.

Rm. 408, Building 1, No. 31, Yinshan Road Yuelu District, Changsha, Hunan 410013 People's Republic of China Tel: +86-13636523212 Email: sales@aemproduct.com Web: www.aemproduct.com

-Contact with strong acids may liberate hydrogen sulfide which may form explosive mixtures with air.

SECTION V - REACTIVITY DATA

Stability: Stable Conditions to Avoid (instability): None Incompatibility: Strong acids and bases. Hazardous Decomposition or Byproducts: Oxides of sulfur and hydrogen sulfide. Hazardous Polymerization: Will not occur. Conditions to avoid (hazardous polymerization): None.

SECTION VI - HEALTH HAZARD DATA			
Routes of entry: Inhalation? Yes	Skin? Yes	Eyes? Yes	
Ingestion? Yes	Other? No		

To the best of our knowledge the chemical, physical and toxicological properties of antimony sulfide have not been thoroughly investigated and recorded.

Tin compounds have variable toxicity. Elemental tin and organic compounds have low toxicity and are poorly absorbed when ingested. Some inorganic tin salts are irritating or can liberate toxic fumes on decomposition. Inhalation of tin dusts over a period of years may cause pneumoconiosis.

Sulfides of the heavy metals are generally insoluble and hence have little toxic action except through the liberation of hydrogen sulfide. (Sax, Dangerous Properties of Industrial Materials, eighth edition)

Signs and Symptoms of Overexposure:

Inhalation: May cause throat dryness, coughing. *Ingestion:* May cause nausea and vomiting. *Skin:* May cause redness, itching. *Eye:* May cause redness, itching, inflammation, watering.

Health Hazards (Acute and Chronic):

Inhalation:

Acute: May cause irritation to the nose and throat. Chronic: Prolonged or repeated exposure may cause pneumoconiosis.

Ingestion:

Acute: May cause gastrointestinal irritation. Chronic: No chronic health effects recorded.

Skin:

Acute: May cause irritation. Chronic: No chronic health effects recorded.

Rm. 408, Building 1, No. 31, Yinshan Road Yuelu District, Changsha, Hunan 410013 People's Republic of China Tel: +86-13636523212 Email: sales@aemproduct.com Web: www.aemproduct.com

Eye:

Acute: May cause severe irritation. Chronic: No chronic health effects recorded.

Target Organs: May affect the eyes, skin, blood, gastrointestinal and respiratory system.

Carcinogenicity:NTP? NoIARC Monographs? NoOSHA Regulated? NoMedical Conditions Aggravated by Exposure:Pre-existing respiratory disorders.

Emergency and First Aid Procedures:

Inhalation: Remove victim to fresh air; keep warm and quiet; give oxygen if breathing is difficult and seek medical attention.

- *Ingestion:* Give 1-2 glasses of milk or water and induce vomiting, seek medical attention. Never induce vomiting or give anything by mouth to an unconscious person.
- *Skin:* Remove contaminated clothing, brush material off skin, wash affected area with mild soap and water, and seek medical attention if symptoms persist.
- *Eye:* Flush eyes with lukewarm water, lifting upper and lower eyelids for at least 15 minutes and seek medical attention.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

Steps to be taken in case material is released or spilled:

Wear appropriate respiratory and protective equipment. Isolate spill area and provide ventilation. Vacuum up spill using a high efficiency particulate absolute (HEPA) air filter and place in a closed container for proper disposal. Take care not to raise dust.

Waste disposal method:

Dispose of in accordance with state, local, and federal regulations.

Hazard Label Information:

Store in cool, dry area and in tightly sealed container. Wash thoroughly after handling.

SECTION VIII - CONTROL MEASURES

Protective Equipment Summary (Hazard Label Information):

NIOSH approved respirator, impervious gloves, safety glasses, clothes to prevent contact.

Ventilation:

Local Exhaust: To maintain concentration at low exposure levels. Mechanical (General): recommended

Tel: +86-13636523212 Email: sales@aemproduct.com Web: www.aemproduct.com

Work/Hygienic/Maintenance Practices:

Implement engineering and work practice controls to reduce and maintain concentration of exposure at low levels. Use good housekeeping and sanitation practices. Do not use tobacco or food in work area. Wash thoroughly before eating or smoking. Do not blow dust off clothing or skin with compressed air.
